(g) No permit for advertising issued pursuant to this section shall be transferred or assigned.

(a) The Commissioner of Transportation is authorized to designate a low-speed electric mobility device parking space or rack on the public way, if the Commissioner determines that establishing such parking space or rack: (i) will not create hazards in the use of the public way by vehicular or pedestrian traffic; (ii) will not impede the safe and efficient flow of traffic upon the public way on which the parking space or rack is proposed; and (iii) will benefit and convenience the public. The Commissioner of Transportation shall designate low-speed electric mobility device parking spaces or racks by appropriate signs or roadway markings or both, as applicable.
